DEPARTMENTS AND CLASSIFICATION.

The plan of the Institution embraces two Departments, COLLEGE and ACADEMIC; each having its prescribed studies, and the whole forming a complete course. The full course, embracing *three years* in the Academic Department, and *four years* in the College, is designed to include all the studies essential to a thorough education.

COLLEGE.

Terms of Admission.

Candidates for admission to the Freshman Class must sustain an examination in Cæsar, Virgil, the Greek Reader, Latin Grammar, Greek Grammar, English Grammar, Ancient and Modern Geography, Arithmetic and Elementary Algebra.

A candidate for an advanced standing, in addition to the above studies, is examined in the various branches to which the class he proposes to enter, has attended.

Satisfactory testimonials of good moral character are required, and those coming from other institutions must bring certificates of regular and honorable dismissal.

An accurate and thorough acquaintance with the studies required for admission is indispensable, in order to receive the full advantage of the College course.

It is found from experience, that students, imperfectly prepared for the class they enter, are embarrassed in their future progress, and are seldom able to repair the want of solid preparatory study.

The Department is under the immediate supervision of the Senior Tutor. It is regularly graded, and students on entering the Institution will be admitted to that grade for which they are qualified by previous study.

Arrangements will be made for those who desire to pursue special studies in the College Department.

Tuition " " 40 "	45 00
Room Rent " " 40 "	10 00

DAY PUPILS.

College per Scholastic year of 40 weeks....	\$45 00
Academic Department, Tuition, 1st grade.....	28 00

The year is divided into three sessions of 16, 14 and 10 weeks, the charges for which will be in accordance with the above rates.

There will be an extra charge for Drawing, Music, Book-keeping, Fuel and Washing.

Each graduate is required to pay to the Treasurer a graduation fee of five dollars, for which he will receive a diploma.

The expenses of each Session are to be paid in advance ; exceptions to be determined by the Treasurer.

All students will furnish their own rooms.

All Academic students are required to board in the institution ; those in College may board in town at private boarding houses, approved of by the Trustees and Faculty.

Students commencing to board in the Institution, will not leave, without giving notice to the President or the person in charge of the Domestic department.

Injury to property will be repaired at the expense of the pupil committing it.

No deduction will be made for the absence or premature withdrawal of a pupil from the Institution, unless occasioned by severe and protracted sickness, when an estimated cost of board will be refunded.

The indiscriminate use of spending money being often a fruitful source of evil, it is recommended that all funds for this purpose be placed in the hands of the President, or one of the Professors for distribution.

Parents and Guardians will frequently save themselves much expense and trouble by communicating directly with the officers of the Institution in regard to their sons or wards. Their cordial co-operation in sustaining the rules of the Institution and securing the cheerful and respectful obedience of their sons or wards will greatly contribute to their improvement and permanent benefit.

A prompt attendance at the commencement of the session is of the utmost importance to the Student. A want of punctuality seriously affects his standing in the Institution.

LOCATION.

ALLENTOWN is beautifully located upon high ground, a short distance above the confluence of the Jordan creek and the Lehigh river, about 50 miles north of Philadelphia. The adjacent country is picturesque, fertile and highly improved, and contains extensive beds of iron ore and slate. It is enclosed in the distance by a lofty range of hills and mountains, which either rise abrupt from their bases, or dissolve from the view in rolling ridges, adorned to their very summits with green fields and clusters of trees, and dotted with the substantial dwellings of thrifty farmers. Few locations combine in a more eminent degree, the advantages of accessibility, healthfulness, sublime and beautiful surroundings, and quietness, for the purpose of study.

The city has frequent and direct communication with New York and Philadelphia, and by the several *through-lines* from these cities to Pittsburg, Chicago and the West generally, as well as by the local Railroads intersecting here, ready access to all parts of our country.

THE BUILDINGS.

The Buildings of the Institution are situated in the south-eastern part of the city, surrounded by about five acres of ground, devoted to its exclusive use. In front there is a fine lawn adorned with shade-trees, and in the rear a large campus supplied with a gymnasium. The building presents a front of 120 feet, with a centre building of 50 feet, and two wings each 35 feet. The centre building has four stories in front and five in the rear, and extends to the depth of one hundred and forty feet. The accommodations are of the most approved character, each room being intended for two students, with alcoves for sleeping, well ventilated, abundantly furnished with light, and commanding beautiful prospects on every side, whilst the arrangements for cleanliness are ample.

The building is fully provided with a Chapel, Library, Recitation and Reading-rooms, &c.

GOVERNMENT.

The government is firmly but kindly administered, and it is intended to be parental in its character. No unnecessary or arbitrary regulations will be introduced, but good order, obedience, and a general propriety of deportment will be strenuously insisted upon, and no one persistently disobedient, or pernicious in his influence, will be retained upon any condition.

An entrance into the institution is considered an agreement in good faith, to abide by its rules and regulations, and expulsion necessitated by disobedience or immorality, a forfeiture of its advantages. It will, however, be the object of the officers and instructors, by their frequent presence and friendly relations with the pupils, to avoid, if possible, the severer forms of discipline and dismissal.

MORAL TRAINING.

The moral and religious training of youth is regarded as a most important part of their education, and nothing can atone for its neglect. Education imparts power to its recipient, but it is only when this is regulated by moral principle that it becomes a blessing to its possessor and the community. Hence the importance of an early training of the heart and conscience, as well as the intellect. For this purpose the Scriptures are daily read, at morning and evening prayers in the institution, and especial pains are taken to awaken an interest in their sacred pages, to mould character by their hallowed influence, and to imbue every heart with noble, generous and christian principles. On the Lord's Day a regular attendance upon public worship and Bible Class is required. The denominational preference of parents will be consulted as far as convenient. The sanctity of the Lord's Day, attendance upon religious duties, correctness of deportment and politeness of demeanor, will be strictly insisted upon.

SCHOLARSHIPS.

The following persons, having each contributed \$1,000 towards the endowment of the College, have by the action of the Board of Trustees, received the privilege of educating perpetually one student, free of expense for tuition, throughout his collegiate course: C. H. Nimson, Esq., Wm. Saeger, Esq., Hon. C. M. Runk, Hon. S. A. Bridges, James K. Mosser, Esq., J. W. Wilson, Esq., Thomas Keek, Esq., A. S. Keek, Esq., Horatio Trexler, Esq., A. W.
